Tamil Nadu , India

PROFESSIONAL SUMMARY

AI & Data Science graduate with hands-on experience in Python, SQL, Machine Learning, NLP, and Data Visualization. Skilled in developing data-driven applications, analyzing complex datasets, and transforming raw data into actionable insights through analytics and automation. Eager to leverage strong analytical, problem-solving, and technical skills to contribute to business growth and informed decision-making.

EDUCATION

• Karunya Institute of Technology and Sciences

B.Tech Artificial Intelligence and Data Science

◦ GPA: 7.44/10.00

2022 - 2026

Coimbatore, Tamil Nadu

EXPERIENCE

• SmartBridge

Business Analytics Intern

- Applied data analytics techniques to extract insights from supply chain datasets
- Created dashboards and visualizations using Qlik Sense
- Analyzed patterns to support data-driven decision making

April 2024 - June 2024

Virtual

• Google Developer Students Club - Karunya

Technical Project Manager

- Monitored project progress, identified risks, and implemented mitigation strategies to keep projects on track
- Led daily stand-ups, sprint planning, and retrospectives to ensure agile best practices

April 2024 - September 2024

Coimbatore, Tamil Nadu

• Cisco

Networking Intern

- Completed the Cisco Virtual Internship in the Networking Stream, gaining hands-on experience in configuring and troubleshooting network devices and protocols
- Developed a strong understanding of networking fundamentals, including VLANs, routing protocols, and network security principles

June 2024 - August 2024

Virtual

PROJECTS

• Web Scraping & Job Data Extraction

Tools: Python, Selenium, Undetected ChromeDriver, BeautifulSoup, Pandas, OpenPyXL

- Developed an automated job data extraction system for large-scale job market analysis
- Implemented Selenium and BeautifulSoup to collect job listings from dynamic web pages
- Created data cleaning and deduplication pipelines to ensure high-quality datasets
- Applied web scraping techniques to analyze hiring trends, skills, and job requirements

• Multi-Stage FIFO Ticket Booking System

Tools: Python, FastAPI, WebSockets, HTML, CSS, JavaScript

- Developed a high-concurrency ticket booking platform supporting 50,000+ simultaneous users
- Implemented a multi-stage FIFO queue architecture for fair ticket allocation and traffic control
- Created real-time user and admin dashboards using WebSockets for live monitoring
- Applied concurrency control and atomic booking mechanisms to prevent overselling and maintain strict FIFO ordering

• Smart Soil Advisor

Tools: Python, Flask, Tesseract OCR, NLP, Scikit-learn, Decision Tree, Random Forest

- Developed a soil report analysis system for sustainable crop recommendation
- Implemented OCR and NLP to extract and process pH and NPK values from soil reports
- Created machine learning models for crop prediction based on soil characteristics
- Applied data analysis techniques to recommend suitable crops for farmers

• Personal Nutrient Health Optimizer

Tools: Python, Flask, NLP, Neural Networks

- Developed a personalized nutrition and lifestyle recommendation system
- Implemented NLP techniques to extract user intent and health-related entities
- Created a recommendation engine for tailored diet and wellness suggestions
- Applied text analysis methods to evaluate recommendation relevance and accuracy

SKILLS

- **Programming Languages:** Python, SQL, HTML & CSS ,JavaScript,Java
- **Data Analytics & Visualization:** Excel, Power BI, Tableau, Qlik Sense, Pandas, NumPy
- **Frameworks & Libraries:** Flask, Streamlit, LangChain, BeautifulSoup, Selenium, FastAPI
- **Cloud & DevOps:** Google Cloud Platform (GCP), Firebase, Git, GitHub
- **Databases & Tools:** MySQL, SQL Workbench, VS Code, PyCharm, Jupyter Notebook, Arduino IDE

CERTIFICATIONS

- **Google Data Analytics Professional Certificate**
- **Google Cybersecurity Professional Certificate**
- **AI Essentials** – Google
- **Artificial Intelligence Fundamentals** – IBM
- **Salesforce Developer Catalyst V3.0 Badges** – Salesforce Trailhead
- **Networking Essentials , Data Analytics Essentials , PCAP: Python Essentials** – Cisco
- **Google Cloud Career Launchpad: Generative AI Track** – Google Cloud
- **Google Cloud Computing Foundation** – Google Cloud Study Jams

ADDITIONAL INFORMATION

Languages: Tamil , English
